

# ADVANCE DIPLOMA CLINICAL ANDROLOGY

Clinical Andrology . Prp . Regenerative Therapies

## Innovating Andrology with PRP & Regenerative Breakthroughs

Accredited certificate from Australian Acadmey of Aesthetic and Regenerative Gynecology

Experience the latest evidence-based curriculum, combining cutting-edge techniques with clinical case

Convenient online mode of study, access anytime from anywhere

Life time access to lectures recording on Youtube

## COURSE HIGHLIGHT

- Male reproductive system & fertility disorders
- Semen analysis & diagnostic techniques
- Hormonal evaluation & management in andrology
- Role of PRP in male infertility & sexual dysfunction
- Regenerative therapies in erectile dysfunction & Peyronie’s disease
- Stem cell applications in male reproductive health
- Latest advances in clinical andrology & research trends

## ABOUT THIS COURSE

This advanced online diploma is designed to equip healthcare professionals with in-depth knowledge and practical skills in male reproductive health, PRP applications, and regenerative therapies. The program covers cutting-edge diagnostic techniques, treatment protocols, and innovative approaches to managing male infertility, erectile dysfunction, and related conditions. Participants will gain evidence-based expertise to integrate regenerative medicine into clinical practice and deliver enhanced patient outcomes.

**Pdf Study Resources, Slides and videos of lectures upon Course Completion**

**Special Discount For Group of Doctors Registration**

**07 - 09 November, 2025**

**Online**

**1275 AED (350 USD)**

# ADVANCE DIPLOMA CLINICAL ANDROLOGY

Clinical Andrology . Prp . Regenerative Therapies

## Innovating Andrology with PRP & Regenerative Breakthroughs

### COURSE MODULES

#### Module 1: Foundations of Clinical Andrology

- Male reproductive anatomy & physiology
- Hormonal regulation & diagnostic tools
- Semen analysis & advanced sperm function tests

#### Module 2: Male Infertility & Sexual Health

- Etiology of male infertility
- Erectile dysfunction & Peyronie’s disease
- Endocrine disorders & genetic causes

#### Module 3: PRP in Andrology

- Principles & preparation of PRP
- PRP applications in erectile dysfunction & Peyronie’s disease
- Safety, protocols & clinical outcomes

#### Module 4: Regenerative Therapies

- Stem cell applications in andrology
- Shockwave therapy & tissue engineering
- Emerging therapies & clinical evidence

#### Module 5: Clinical Practice & Ethics

- Case-based learning & patient management
- Evidence-based protocols
- Ethical, legal & regulatory considerations

#### Module 6: Research & Future Directions

- Advances in regenerative medicine
- Clinical trial design in andrology
- Translational research opportunities

### WHY TO ATTEND

- Understand male reproductive physiology and pathology.
- Perform and interpret advanced diagnostic tests in andrology.
- Apply PRP techniques for erectile dysfunction and Peyronie’s disease.
- Integrate regenerative therapies into patient care.
- Critically assess new research and clinical evidence.
- Learn evidence-based protocols for clinical practice.
- Enhance patient outcomes with modern therapeutic approaches.
- Improve career prospects in andrology and regenerative medicine.

### WHO SHOULD ATTEND

- Urologists and Andrologists
- Gynecologists and Fertility Specialists
- Dermatologists and Aesthetic Physicians
- Regenerative & Anti-Aging Medicine Practitioners
- General Practitioners with interest in Men’s Health
- Laboratory Scientists in Reproductive Medicine
- Residents, Fellows, and Medical Students specializing in Urology/Andrology

Ideal for healthcare professionals eager to advance expertise in male reproductive health, PRP, and regenerative therapies to enhance clinical practice and patient outcomes
