

MASTERCLASS IN NON-INVASIVE RHINOPLASTY AND BLEPHAROPLASTY

Clinical Excellence Program

Art & Science of Non-Surgical Rhinoplasty & Blepharoplasty

Accredited certificate from Canadian Academy of Cosmetic Surgery and Aesthetic Medicine

Experience the latest evidence-based curriculum, combining cutting-edge techniques with clinical case

Convenient online mode of study, access anytime from anywhere

Life time access to lectures recording on Youtube

COURSE HIGHLIGHT

- **Focused Training** – Non-surgical rhinoplasty & eyelid rejuvenation techniques
- **Expert Faculty** – international specialists in advanced injectables and aesthetics
- **Latest Advances** – hyaluronic acid fillers, toxins, bio-stimulators, and regenerative options
- **Safety First** – complication prevention and emergency management protocols
- **Evidence-Based** – protocols rooted in anatomy and clinical best practices
- **Certification** – accredited certificate upon completion
- **Networking** – with experts and peers in the aesthetic field

ABOUT THIS COURSE

The Masterclass in Non-Invasive Rhinoplasty & Blepharoplasty is an advanced training program designed for medical professionals seeking expertise in non-surgical approaches to nasal and periocular rejuvenation. This course combines anatomy, technique, and artistry, enabling participants to deliver natural, safe, and transformative results without surgery.

Led by international experts, the program blends theory and ensuring participants gain both knowledge and confidence in advanced injectable and skin rejuvenation techniques specific to the nose and periorbital area.

Pdf Study Resources, Slides and videos of lectures upon Course Completion

MASTERCLASS IN NON-INVASIVE RHINOPLASTY AND BLEPHAROPLASTY

Clinical Excellence Program

Art & Science of Non-Surgical Rhinoplasty & Blepharoplasty

COURSE MODULES

Module 1: Anatomy & Safety

- Nasal and periocular anatomy
- Vascular mapping and danger zones
- Patient assessment and treatment planning

Module 2: Non-Surgical Rhinoplasty

- Indications and limitations of non-invasive rhinoplasty
- Filler selection and rheology considerations
- Injection techniques for nasal dorsum, tip, and correction of asymmetry
- Complication prevention (vascular occlusion, skin necrosis)

Module 3: Non-Surgical Blepharoplasty

- Assessment of eyelid aging
- Injectable techniques for tear trough and periorbital rejuvenation
- Use of skin boosters, PRP, and regenerative therapies
- Energy-based devices for eyelid tightening

Module 4: Advanced Combination Therapies

- Toxin + filler protocols for periocular harmony
- Combined non-surgical rhinoplasty and midface enhancement
- Integrating skin rejuvenation for natural results

Module 5: Complication Management

- Hyaluronidase protocols
- Vascular emergency management
- Safe injection practices

Module 6: Case Discussions & Evidence-Based Practice

- Clinical case reviews
- Best practice protocols
- Future innovations in non-surgical rhinoplasty & blepharoplasty

WHY TO ATTEND

- Master non-surgical techniques for rhinoplasty and blepharoplasty
- Gain hands-on training with live models under expert supervision
- Learn facial anatomy and safety protocols for high-risk areas
- Understand filler, toxin, and energy-based applications for nose and eyes
- Explore combination therapies for comprehensive rejuvenation
- Enhance your practice with high-demand, minimally invasive procedures
- Receive an internationally recognized certificate to strengthen professional credibility

WHO SHOULD ATTEND

- Plastic Surgeons
- Dermatologists
- Aesthetic & Cosmetic Physicians
- Oculoplastic & Maxillofacial Surgeons
- Residents & Fellows in Aesthetic Medicine and Surgery
